

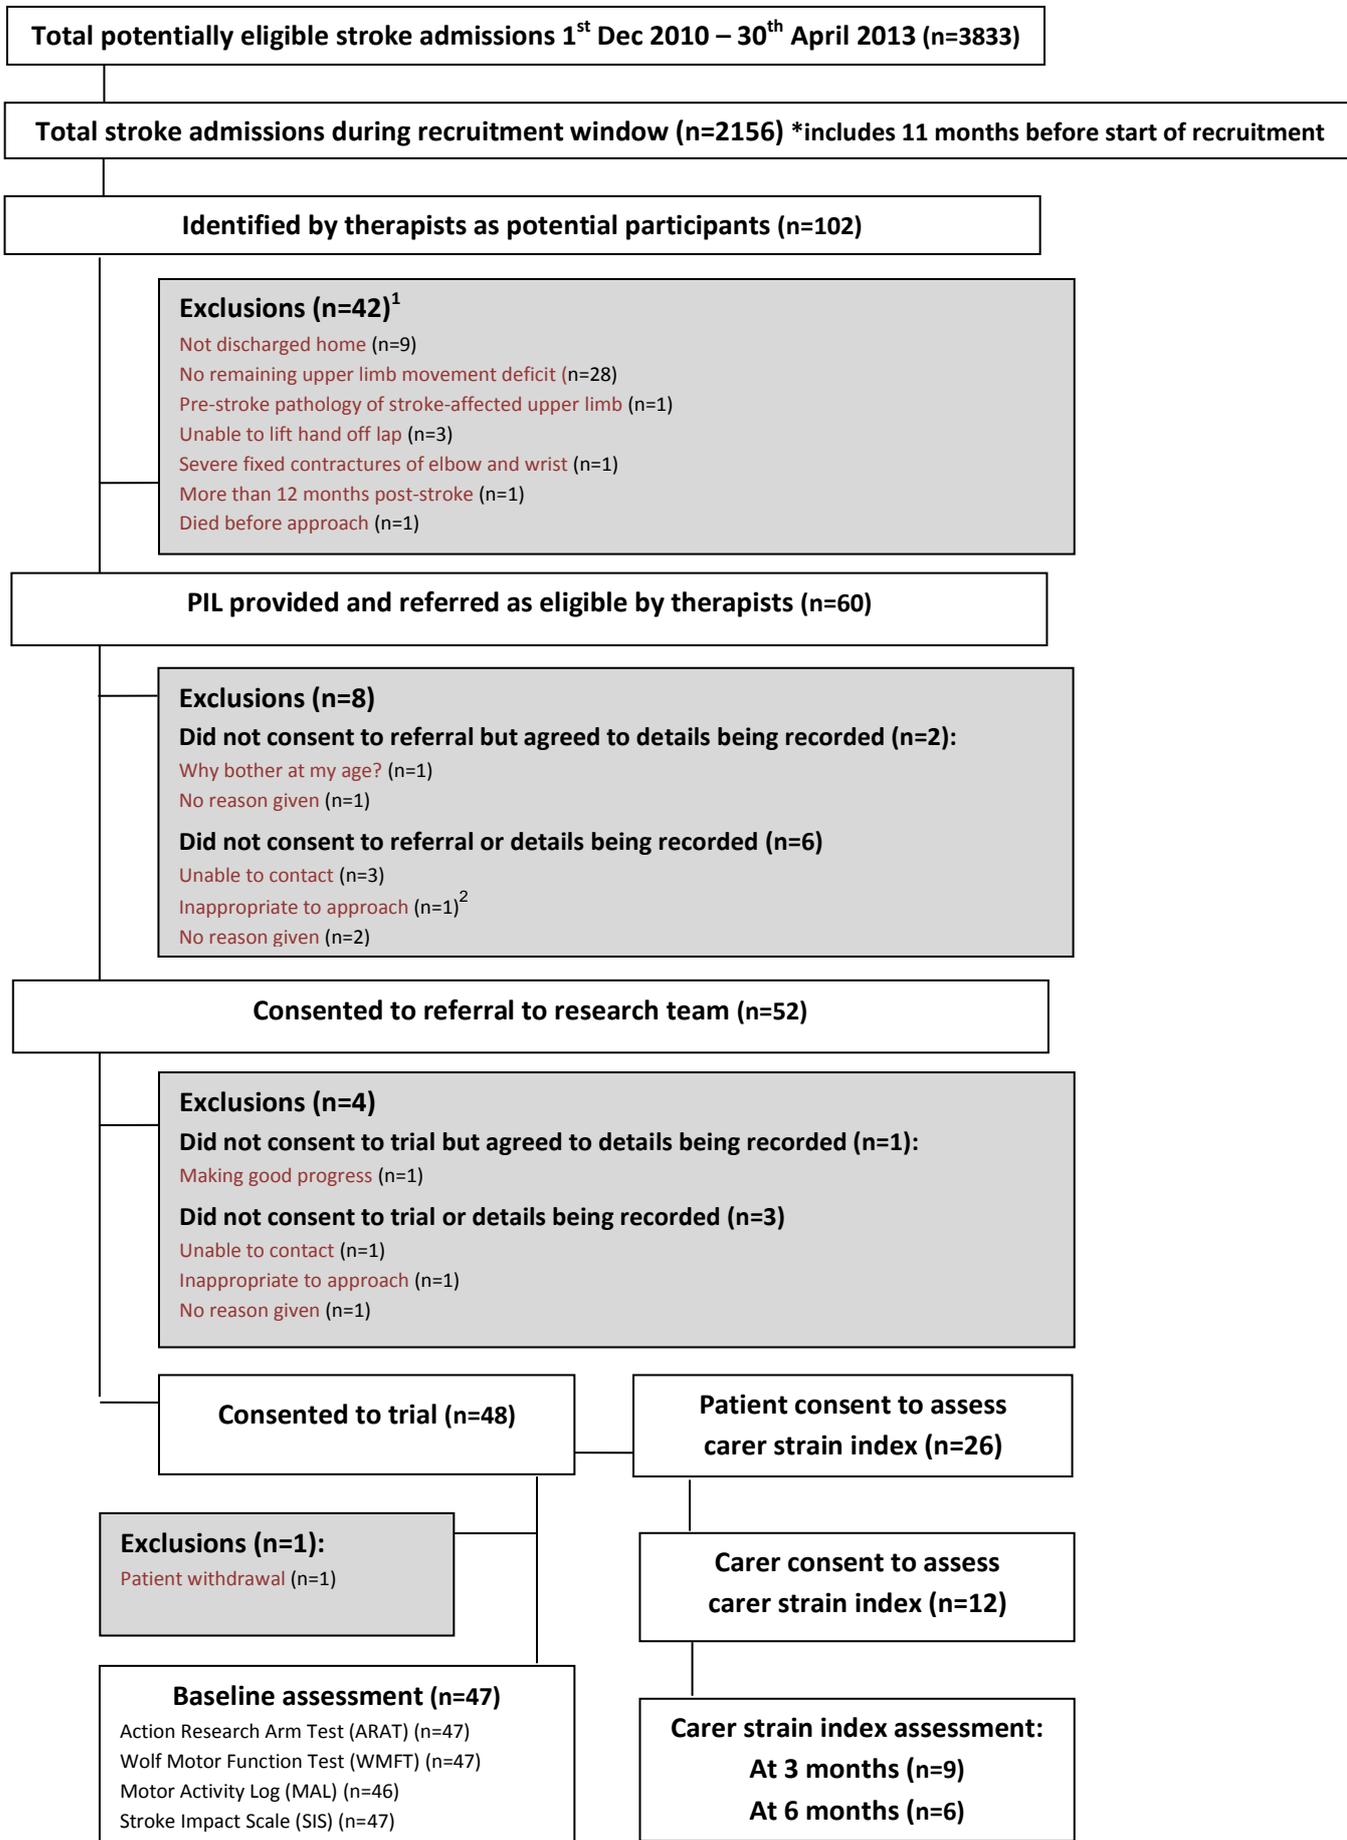

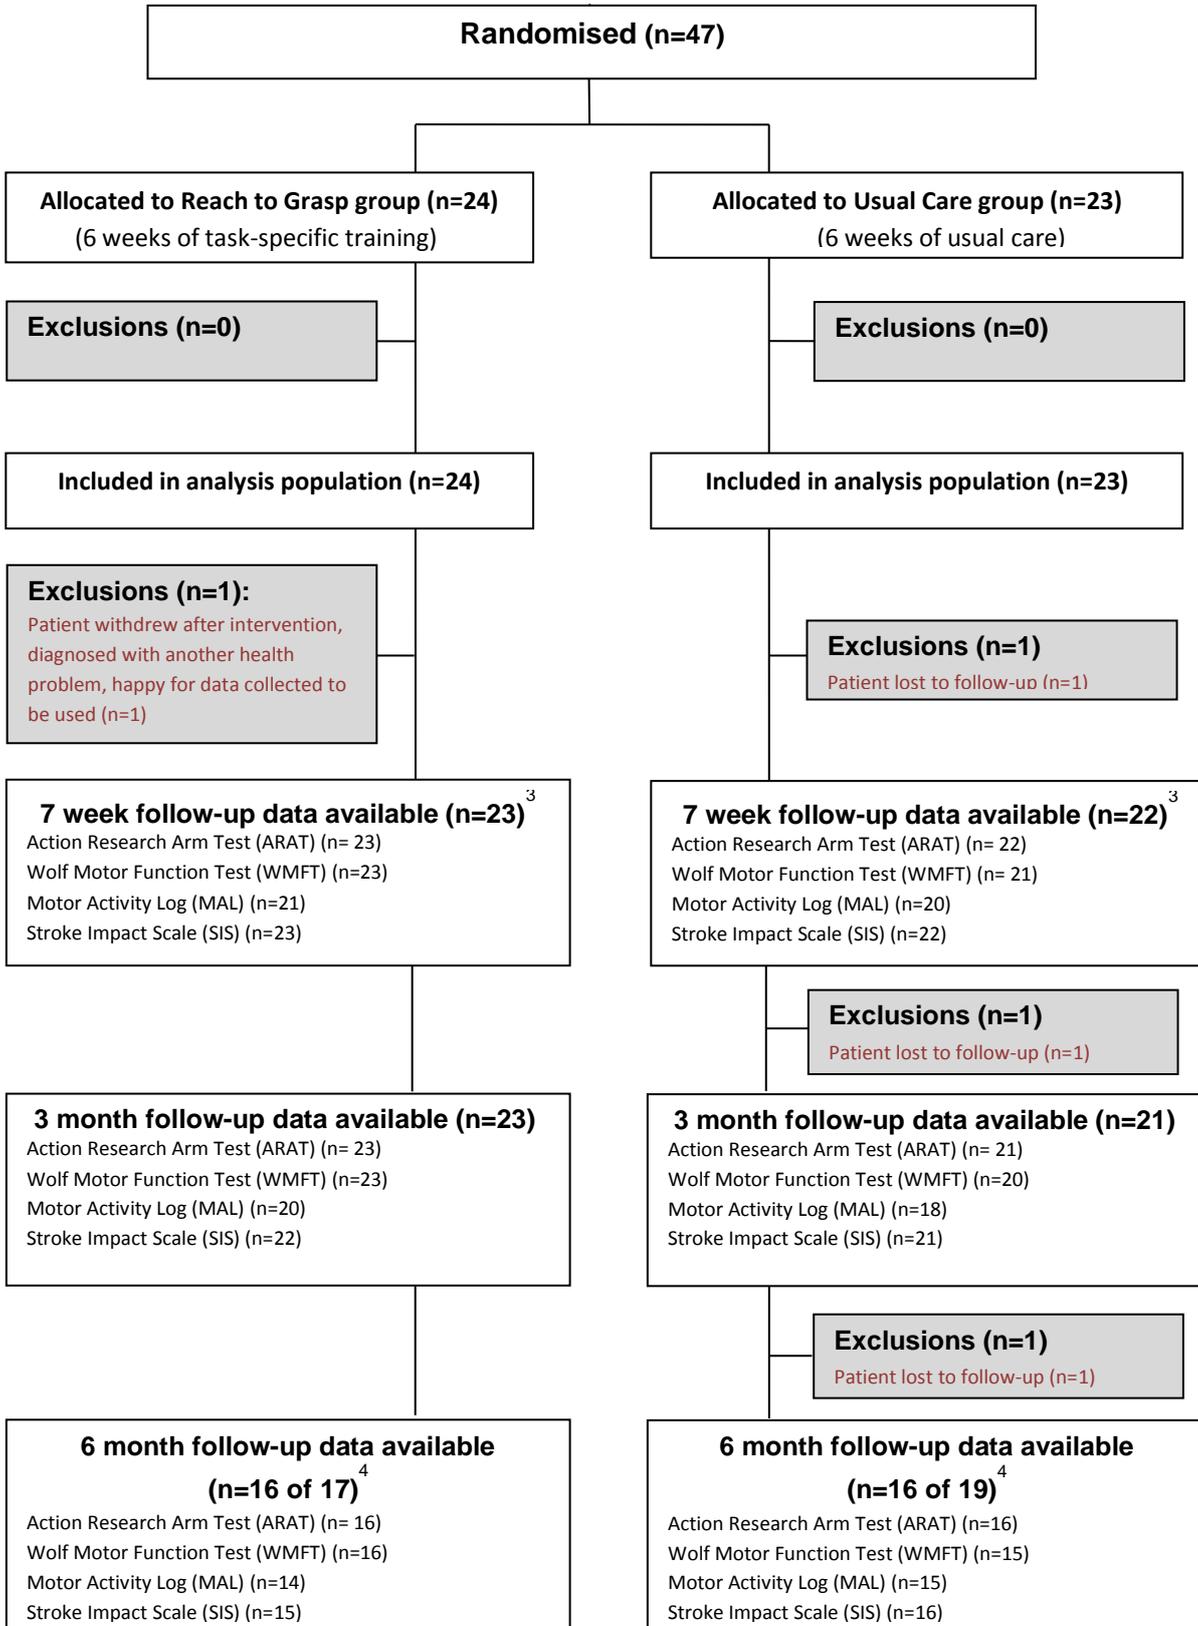

Figure F1 Flow of participants

Continued on next page

Continued from previous page

Notes:

¹ Some patients may be ineligible for more than one reason

² due to recent bereavement and discharge to nursing home

³ Number of patients with any outcome data available

⁴ study was stopped before 11 patients reached 6 month follow-up

Table 1: “Other” reasons for exclusions

Table not required as all available information included in flowchart

Table 2: Protocol deviations

	Randomised to RTG (n=24)		Randomised to usual care (n=23)		Total (n=47)	
	n	%	n	%	n	%
Any protocol deviation	7	29%	0	0%	7	15%
Did not receive allocated treatment	0	0%	0	0%	0	0%
Did not complete the full course of treatment ¹	7	29%			7	15%
Did not meet eligibility criteria	0	0%	0	0%	0	0%

¹ Note: This follows the definition in the SAP (i.e. any visits with visit duration=0 or missing, or treatment duration=0 or missing). However examining the reasons (below in Table 3) may mean that we don't wish to consider some of these as protocol deviations

Table 3: Full details of protocol deviations

Patient ID: 1010

Site: NBT

Number of completed visits: 13

Comments:

Missed visit 1 Unable to complete visit 6 due to staffing shortage.

Patient ID: 1036

Site: NBT

Number of completed visits: 12

Comments:

Missed visit 1 Visit not completed due to shoulder pain.

Missed visit 2 Visit not completed due to shoulder pain.

Patient ID: 2009

Site: UHB

Number of completed visits: 6

Comments:

- Missed visit 1 Day before treatment due to commence, participant admitted to hospital with TIA (reported as SAE) therefore unable to complete first 2 visits.
- Missed visit 2 Day before treatment due to commence, participant admitted to hospital with TIA (reported as SAE) therefore unable to complete first 2 visits.
- Missed visit 3 Visited participant who reported fall from wheelchair and not able to do therapy due to shoulder pain.
- Missed visit 4 Participant contacted to say he is not able to do therapy again due to shoulder pain.
- Missed visit 5 Family problem.
- Missed visit 6 Tummy bug.
- Missed visit 7 Participant reports still not feeling well enough for visit.
- Missed visit 8 Visited for final visit but participant not available. Later managed to contact and reported still unwell and has gone to visit family.

Patient ID: 2023

Site: UHB

Number of completed visits: 11*

Comments:

- Missed visit 1 Unable to complete visit as participant admitted to hospital for atrial ablation and post-operative complications. SAE form completed.
- Missed visit 2 Unable to complete visit as participant admitted to hospital for atrial ablation and post-operative complications. SAE form completed.

** One further visit took place but no data captured*

Patient ID: 3013

Site: WAHT

Number of completed visits: 13

Comments:

- Missed visit 1 Phone call from son reporting that participant had diarrhoea and does not feel well enough for session therefore visit not completed.

Patient ID: 4002

Site: BCH

Number of completed visits: 12

Comments:

Missed visit 1 Unable to complete visit as participant admitted to hospital with head pain. SAE report completed.

Missed visit 2 Participant called to cancel visit as feeling unwell.

Patient ID: 5004

Site: NSCP

Number of completed visits: 10

Comments:

Missed visit 1 Main therapist (Paul Cunningham) on annual leave. Colin Domaille covering but only able to complete 2 visits this week.

Missed visit 2 Participant on holiday therefore unable to complete visit.

Missed visit 3 Participant on holiday therefore unable to complete visit.

Missed visit 4 Participant on holiday therefore unable to complete visit.

Table 4: Details of withdrawals (Note: This was a table in the SAP but as there are only two withdrawals we have just listed all details)

Study ID	4013
Decision for withdrawal	Patient withdrawal
Date of withdrawal	01mar2013
Timing of withdrawal	Before randomisation
Reason for withdrawal	
Is patient willing for data already collected to be used?	
If YES, willing for routine data collection to continue?	
If YES, willing to participate in follow-up?	
Any further details of withdrawal	
Study ID	2009
Decision for withdrawal	Patient withdrawal
Date of withdrawal	09apr2013
Timing of withdrawal	After intervention
Reason for withdrawal	Diagnosed with another health problem
Is patient willing for data already collected to be used?	Yes
If YES, willing for routine data collection to continue?	Yes
If YES, willing to participate in follow-up?	No
Any further details of withdrawal	Would like to receive letter at end of study informing of results.

Table 5: Characteristics of included and excluded patients

Not possible to produce this table as only 3 patients that did not consent to the trial consented to their details being stored (see table 6)

Figure 2: Recruitment

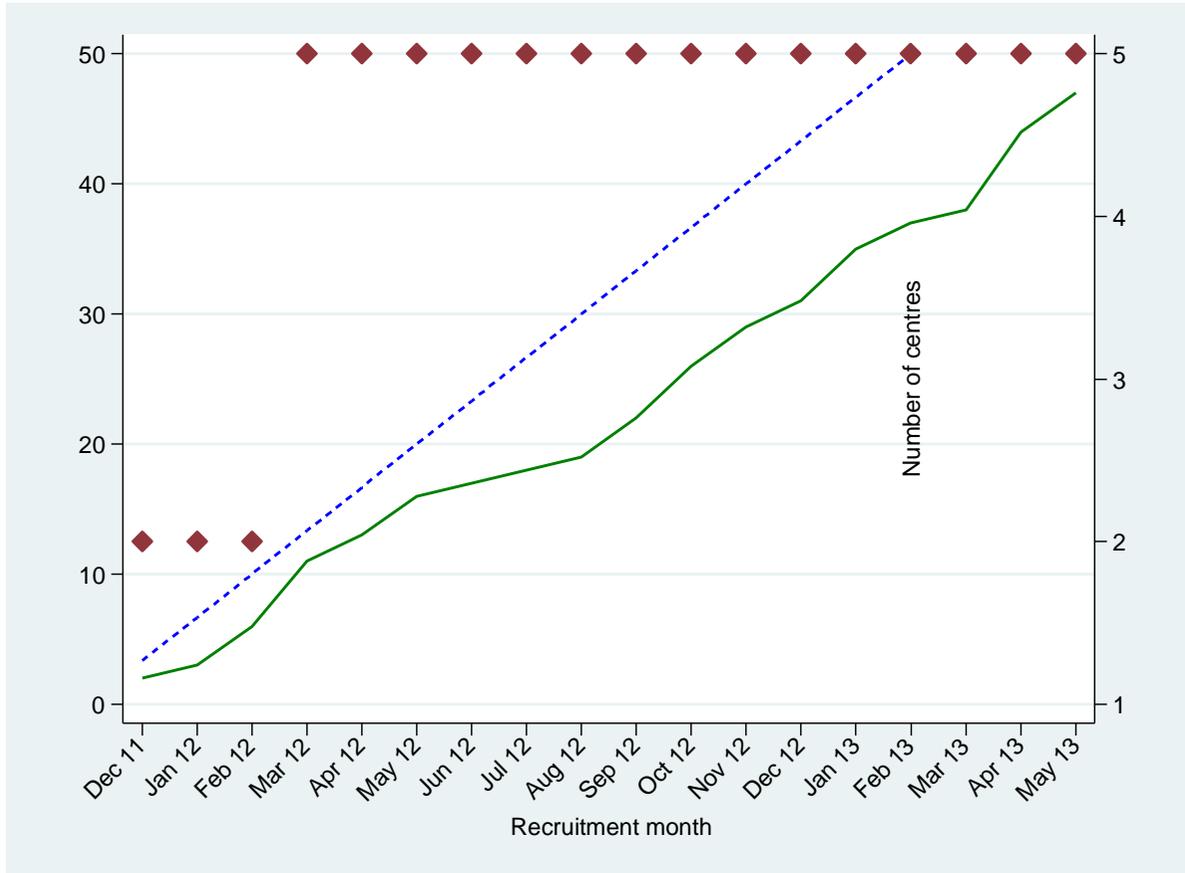

Table 6: Screening data by centre

Centre	Number months recruiting into study	Screened	Ineligible (% of screened patients)		Did not consent to trial but consented to details being kept	Did not consent to trial or details being kept	Consented (% of screened patients)	
		n	n	%	n	n	n	%
North Bristol Trust (NBT)	17	35	9	26%	1	5	20	57%
University Hospitals Bristol Foundation NHS Trust (UHB)	15	25	14	56%	1	0	10	40%
Weston Area Health Trust (WAHT)	15	18	12	67%	0	2	4	22%
Bristol Community Health (BCH)	17	15	7	47%	1	0	7	47%
North Somerset Community Partnership (NSCP)	15	9	0	0%	0	2	7	78%
Total	-	102	42	41%	3	9	48	47%

Table 7: Patient demography and past history

		Randomised to RTG (n=24)		Randomised to Usual Care (n=23)		Total (n=47)		Number of missing values	
		n	%	n	%	n	%	RTG	Usual care

¹ Note missing data are mainly due to patients missing the form in the database.

Table 19: Unexpected serious adverse events

		Randomised to RTG (n=24)	Randomised to Usual care (n=23)	Overall (n=47)	Number of missing values	
		n	n	n	RTG	Usual care
Number of patients experiencing one or more SAEs		5 (21%)	5 (22%)	10 (21%)		
Number of events		6	6	12		
Event type	Suspected TIA	1	1	2	0	0
	Seizure	1	0	1		
	Atypical seizure	0	1	1		
	Loss of upper limb function	1	0	1		
	Fainted and fractured hand	0	1	1		
	Mental breakdown	0	1	1		
	Planned cranioplasty had complications	1	0	1		
	Atrial ablation related to heart failure	1	0	1		
	Suspected chest infection	0	1	1		
	Kidney failure and septicaemia - patient died	1	0	1		
	Death	0	1	1		
Timing of events	After randomisation but before 7 week follow-up	3	1	4	0	2
	Between 7 week and 6 month follow-ups	3	3	6		
Maximum intensity	Moderate	4	4	8	0	0
	Severe	2	2	4		
Resulted in death		1	1	2	0	0
Is/was life-threatening		2	1	3	0	0
Resulted in persistent or significant disability/incapacity		2	1	3	0	0
Hospitalisation		5	6	11	0	0
Relatedness to intervention	Not related	4	6	10	0	0
	Unlikely to be related	2	0	2		

- Note: although 2 patients died, however only one of the SAE forms had "SAE resulted in death" ticked. One of the events was originally reported as hospital admission for kidney failure. However the follow-up form was completed stating that the patient died after a hospital stay.
